TECHNICAL TRAX ADVANCE

type HA/HXA PRO KIT

**for
350Z·G35**

EFFECTIVE LSD UNIT & FINAL GEAR KIT COMBO! SUITED FOR DRIFT OR TECHNICAL RACE TRACKS

The body of the 350Z/G35 comes equipped with a naturally aspirated engine, despite the fact of the vehicle's fairly large build. Nissan's effort in creating this vehicle for its lively qualities comes from their decision to integrate the esteemed FR layout and fine weight distribution. However, the enjoyment of driving can be enhanced further with a limited slip differential unit. Tomei Powered has combined a final gear set with this LSD for more improved handling and quicker throttle reaction. The characteristics of the vehicle are drastically changed with the installation of this kit. Overall, the car will be highly responsive and comply with the driver's every instruction.

HA PRO KIT / HXA PRO KIT
